O'Connor College of Business	Hallway, in front of OCN-344
PAC	Stairway near room M300 Stairway near room M201
Student Service Center	Mezzanine, in front of SSC-215
University Center	Hallway next to room 215 Hallway next to room 315
University Service Center	Break room area, USC-216, near elevator

In case of a fire emergency, persons with physical disabilities should observe the following procedures:

- All persons shall move towards the nearest marked EXIT. As a first choice, persons with physical disabilities may use the building elevator-but **NEVER** in the event of a Fire or an Earthquake.
- As a second choice, when persons with physical disabilities reach an obstruction such as a staircase, they should request assistance from others or go to the stairwell landing designated as an “Area of Rescue Assistance.”
- If assistance is not immediately available, persons with physical disabilities should stay near the wall in the exit corridor, or on the stairwell landing. They should continue to call for help until rescued.
- People who cannot speak loudly should carry a whistle or have other means of attracting the attention of others.

Garaventa Evacuation Chairs

- ❑ Persons with physical disabilities should prepare for an emergency ahead of time by instructing faculty and classmates on how to assist them in an emergency. They should know the location of the designated evacuation stairway.
- ❑ Persons with hearing or visual impairments working alone in isolated areas such as study rooms and labs should notify nearby building staff or University Police of their location.
- ❑ TAMUCC Disability Services office: 361-825-5816

Features

- Quick and easy set up for immediate use
- Carries up to 300 lbs.
- Passenger's weight moves unit down stairs, while the governor controls speed
- Failsafe brake brings unit to a complete stop automatically
- Adjustable safety straps
- Stable and self-supporting
- Unique seat design allows easy transfer from wheelchair
- The tracks grip the stairs, regardless of the stair construction material

Benefits

- Provides quick and safe emergency evacuation
- No hand carrying of persons with physical disabilities
- Small attendants can easily move heavier passengers
- Easily stores in a secure area when not in use
- Requires minimal maintenance
- Available immediately
