III. New Business:
1. Recycling Presentation by Randy Haaker. Randy began by stating that the recycling program at TAMUCC began in mid-November 2012 and has picked up over 7 tons of materials since then. The University has grown from 6 dumpster to 8.

   The City of Corpus Christi was assisting with the campus recycling prior to November. When the recycling program began, recycle products were divided by paper, plastic and aluminum cans. Since then, the City of Corpus Christi has adopted the single-streamed recycling which makes recycling more convenient.

   Randy also informed the Council that Facility Services has two workers that spend about 2/3 of their time with recycling.

2. Mulcher- The council had a first-hand look at the mulcher that was purchased through the Student Green Fee.

3. Vote on Environmental Policy Statement:
   The committee unanimously voted to submit the Environmental Policy Statement to the President for approval. The motion was made by Elzweig and second by Paret.
