

## ***Hazardous Waste Disposal Safe Operating Procedure***

Contact: **Campus Ext: 5555**  
**E-Mail: ehs@tamucc.edu**

### **Containers for Wastes**

1. Ensure that containers of liquid and solid waste are in good condition, so that handling can be accomplished in a safe manner at all times.
2. Containers must be appropriate for the types of chemicals they hold, and must be able to withstand non-climate controlled conditions inside the Hazardous Waste Storage Building.

### **Labels**

1. Use the standard hazardous waste label to correctly identify lab wastes.
2. An "unknown" substance will be costly to analyze and dispose of.

### **Satellite Accumulation**

1. Store the labeled containers of waste in the satellite inside the laboratory.
2. Do not place these satellites outside of labs.

**Fully advise E,H&S of any special handling requirements!**

### **Lab Coordinator Scheduling Duties**

1. The Lab Coordinator (or their designee) will contact E,H&S to schedule a delivery.
2. The Lab Coordinator (designee) will deliver hazardous wastes to E,H&S staff:  
(A) at your building's loading dock.  
**OR**  
(B) directly to the Hazardous Waste Storage Building.
